

# boosterPOD®

BIG Boost for Little Ones!™

## Because We Care:

Please read the following information carefully and retain it for future reference. Ensure that anyone who may use boosterPOD® reads this information prior to initial use. Failure to follow the operating instructions may result in harm to your child.

Use boosterPOD® only when a child is able to sit up independently. Prince Lionheart recommends that this product be used with children 12 months – 4 years of age. Never leave Child unattended as some children may be able to remove themselves from the boosterPOD®, depending on their size, maneuverability, and age. Always use boosterPOD® with the two straps correctly fitted to a chair before securing your child in the boosterPOD® using the 3-point safety harness.

## Where do I place the boosterPOD®?

For comfort and safety, boosterPOD® should always be positioned so that the base of the POD is positioned horizontally on a suitable chair with 4 legs, a back, and a seat base larger than the base of the boosterPOD®. (Please note that chairs with openings in the back that exceed a height of 10 inches should not be used with boosterPOD®). When securing boosterPOD® to a suitable chair, center the boosterPOD® on the chair and then position it as closely to the chair's back as possible. Fasten the boosterPOD® straps tightly around the back and base of the chair. Never attach boosterPOD® to swivel chairs or chairs with wheels, and never use boosterPOD® in a bath, automobile or on a raised surface other than a suitable chair.

## What are some advantages of using the boosterPOD®?

Seeing the world from a different perspective encourages a child's learning and discovery of the world. With boosterPOD®, a child can now join the family at the dining table while sitting comfortably, securely and in style. Without the confines of a highchair, your child will feel like a big boy or girl as he/she interacts with the rest of the family, whether it's mealtime or playtime, both indoors or outdoors.

## IMPORTANT: Keeping your Baby safe

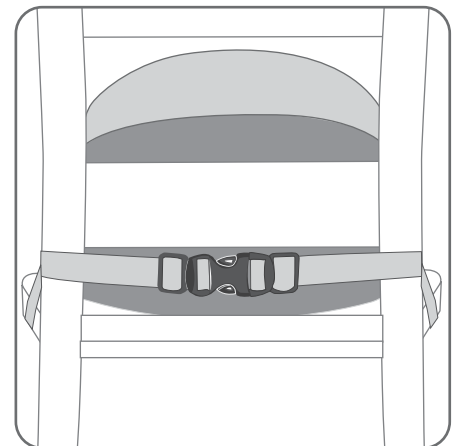

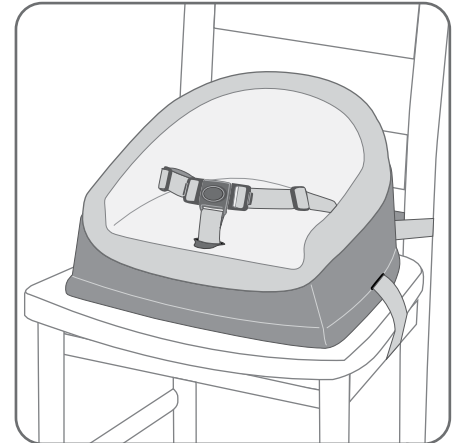

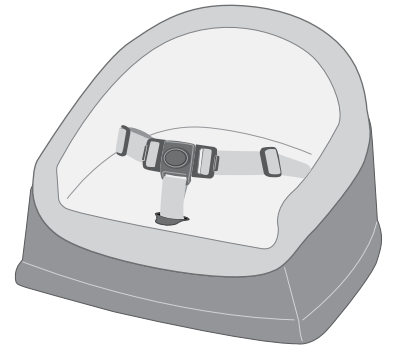

The safety of your child is very important to everyone at Prince Lionheart. We have done our best to provide you with a safe, effective product, but you must do your part by regularly inspecting all products used in proximity to your child, including boosterPOD®, for defects, deterioration, or potentially harmful situations. If you notice any deterioration in boosterPOD®, please discontinue use immediately. If it is a manufacturing defect, then please discontinue use and contact Prince Lionheart for further information.

## Caring for your boosterPOD®

The boosterPOD® and its accessories are made of durable, non-toxic materials that can be easily wiped clean with warm water and soap.

## Guarantee

Prince Lionheart guarantees boosterPOD® for 12 months from date of purchase against defects in workmanship and materials. This guarantee is void in cases of abuse, tampering, improper use, normal wear and tear, or unauthorized repair. Prince Lionheart will repair or replace the defective part free of charge for valid guarantee claims within this period. Please contact Prince Lionheart for details: [customerservice@princelionheart.com](mailto:customerservice@princelionheart.com). This guarantee does not affect any other rights the purchaser may have.
